

SCIENCE

The Water Cycle

Can you make a water cycle look like this?

Look at it over a few days and keep a diary of what happens each day.

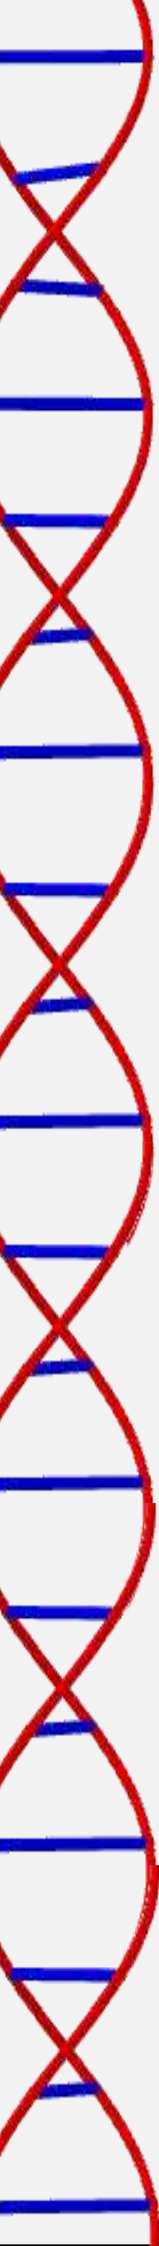

Reactions

What are your reactions like?

Practice how many times in a row you can catch the fish. (It is even better as this is all made from recycled plastic.)

Could you think of and make your own idea to bring in and show Miss Jones in September?

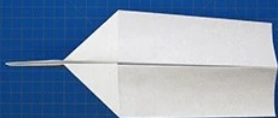

Cup Shooter

How far can your cup shooter shoot a small ball? Measure the distances, have a competition with your family and record the results.

The Basic

Easy
time aloft

Basic Dart

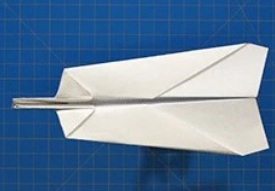

Easy
distance

Hunting Flight

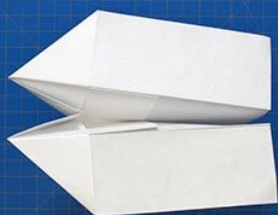

Medium
distance, time aloft

Heavy-Nosed Plane

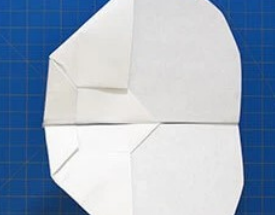

Hard
distance, time aloft

Water Plane

Easy
time aloft, acrobatic

The UFO

Medium
time aloft, acrobatic

Paper Airplanes

What different shaped paper airplanes can you make? How far did each one go? Keep them and bring them in to show Miss Jones with your results.

[FoldNFly](#) have lots of great ideas and even gives you step-by-step instructions on how to make each type!
